## WORK HISTORY

10/2023 - Current

**Flutter Developer**

**Self Employed Freelancer** | Remote

I have been working as an independent full-time developer  
for about a year now, communicating directly with clients.

With 6 years of experience as a Flutter developer under my  
belt, I can confidently say that I am capable of creating  
mobile applications of any complexity using Flutter. Moreover,  
since I am also proficient in backend development, I can  
consider myself a skilled full-stack developer.
